

## PROFESSIONAL EXPERIENCE

### Junior Software Engineer

August 2023 — Present

Leapwork India (Remote)

- ▶ Delivered critical incident resolution for **\$90K** Berkeley Group deal with **same-day turnaround**, earning cross-functional recognition from the **VP of Product**, Engineering Manager, and technical leadership
- ▶ Authored a comprehensive knowledge base resolving **20+** recurring issues across 4 teams (30+ developers), achieved 80% faster incident resolution, and received the **VP of Engineering's appreciation** for systematic process improvement
- ▶ Improved product stability by fixing over **20 bugs** and resolving over **150 customer incidents**
- ▶ Enhanced **Microsoft D365 reliability** through code optimizations, reducing errors by **15%**
- ▶ **Mentored a new hire**, streamlining their onboarding and promoting knowledge sharing

### Trainee Engineer

March 2023 — August 2023

Leapwork India (Remote)

- ▶ Started as a trainee and quickly demonstrated **strong problem-solving abilities**
- ▶ Participated in **code reviews and debugging sessions** to understand best practices
- ▶ Contributed to **customer incident resolution** and learned Agile development methodologies
- ▶ Gained hands-on experience with C# and JavaScript in an enterprise-level application

## KEY PROJECTS

### CarWorld - Car Showcase Platform | [Node.js](#), [Express.js](#), [MongoDB](#), [CSS](#), [Pug](#)

[Github](#)

[Youtube](#)

[Live](#)

Car-buying platform with **filtering**, **RESTful API**, **JWT authentication**, **MVC architecture**, **Stripe (3rd party API integration)**, and **responsive design**

### Library Management System | [Java](#), [Spring Boot](#), [Dependency Injection](#), [Maven](#)

[Github](#)

Spring application demonstrating **layered architecture pattern**, **dependency injection**, **component scanning**, **autowiring**, and **IoC container management**

## TECHNICAL SKILLS

**Programming Languages:** Java, JavaScript, C# .NET

**Backend & APIs:** Spring Boot, JPA, REST APIs, Node.js, Express.js, API authentication

**Databases & Data:** SQL, MongoDB (NoSQL), JSON data handling

**Development Practices:** OOP, MVC architecture, Agile methodologies, Code reviews

**Tools & Environment:** Git, Maven, Visual Studio Code, IntelliJ IDEA, Postman (API testing), Debugging & troubleshooting

## EDUCATION

**B.Tech in Computer Science and Engineering** | Lovely Professional University (LPU), Punjab | 2018 — 2022
