

PROFESSIONAL EXPERIENCE

Junior Software Engineer

August 2023 — October 2025

Leapwork India (Remote)

- ▶ Delivered critical incident resolution for **\$90K** Berkeley Group deal with **same-day turnaround**, ensuring operational reliability and earning cross-functional recognition from **VP of Product**, Engineering Manager, and technical leadership
- ▶ Developed comprehensive knowledge base resolving **20+** recurring issues across 4 cross-functional teams (30+ developers), achieving **80% faster** incident resolution and receiving **VP of Engineering appreciation** for driving continuous improvement initiatives
- ▶ Enhanced application stability and performance by fixing over **20 bugs** and resolving over **150 customer incidents** through rigorous debugging and troubleshooting
- ▶ Improved **Microsoft D365 system reliability** through code optimizations, reducing errors by **15%** and ensuring robust software solutions
- ▶ **Mentored a new hire**, facilitating knowledge transfer and promoting collaborative development practices

Trainee Engineer

March 2023 — August 2023

Leapwork India (Remote)

- ▶ Rapidly progressed from trainee role, demonstrating **strong problem-solving capabilities** and technical aptitude
- ▶ Participated in **code reviews and collaborative debugging sessions** to maintain code quality and adhere to best practices
- ▶ Contributed to **customer incident resolution** and gained practical experience with Agile development methodologies
- ▶ Developed hands-on expertise with C# and JavaScript in large-scale enterprise applications

KEY PROJECTS

ECommerce Spring Boot API | Java, Spring Boot, JPA, RESTful APIs, Maven, SQL, REST Web Services

[Github](#)

Developed scalable backend API with comprehensive **RESTful web services**, **JPA persistence layer**, **robust exception handling**, **data validation**, and **bulk operations** demonstrating proficiency in Java and high-performance application development

CarWorldEnterprise - Car Showcase Platform | Spring Boot, Java, REST APIs, JPA/Hibernate, SQL, MVC Architecture

[Github](#)

Built scalable platform leveraging **MVC architectural pattern**, **REST APIs**, **JPA/Hibernate ORM** for database management, **role-based access control**, and **comprehensive error handling**

TECHNICAL SKILLS

Languages: Java, JavaScript

Frameworks & Technologies: Java Spring Boot, REST APIs, Microservices Architecture, Node.js, Express.js, MongoDB, HTML/CSS, MVC, JSON

Database Management: SQL, JPA/Hibernate

Tools & Practices: Object-Oriented Programming (OOP), Git, Debugging & Troubleshooting, Agile Methodologies, Visual Studio Code, IntelliJ, Postman, Visual Studio

EDUCATION

B.Tech in Computer Science and Engineering | Lovely Professional University (LPU), Punjab | 2018 — 2022
